General Instructions

About the survey

The Federal Reserve 2017 *Depository and Financial Institutions Payments Survey* (DFIPS) is a national survey of the largest depository and financial institutions that offer transaction deposit accounts, prepaid card program accounts, and credit card accounts to consumer, business, and government customers. The survey gathers data about noncash payments and cash withdrawals that posted to domestic customer accounts, and unauthorized third-party payment fraud against those customer's accounts that took place during calendar year 2016. Given the significance of your institution, your contribution is needed to provide an accurate representation of key payments trends.

Confidentiality

Any information you provide for this survey is strictly confidential. Individual responses to the survey will not be shared with the public or the industry.

Your participation

Data from your institution will be combined with that of other large institutions to estimate aggregate trends in the reported items. Participants will receive a customized peer report comparing their institution's responses relative to that of their peers. To achieve the most reliable results, it is important that you respond completely and accurately. **If your institution outsourced payments processing to another organization during calendar year 2016**, please request the necessary data from that organization or provide them with the survey so they may respond on behalf of your institution.

Please leave no data element blank.

There are **three possible ways** to respond to a survey item that requests a numeric value:

1. **Positive Numeric Amount:** If your institution has volume for the item requested and the volume is known or can be accurately estimated, enter the amount. (Enter "0" if the amount equals zero.)
2. **"0":** If your institution does not have volume for the item requested (i.e., the item requested does not apply to your institution), enter "0".
3. **"NR":** If your institution has volume for the item requested but the volume is unknown and cannot be accurately estimated, enter "NR" (not reportable). (Do not enter "0" if the volume exists but the amount is unknown.)

Third-party fraud

This survey includes questions about the volumes of unauthorized third-party fraud that cleared and settled via each payment type. Cleared and settled means that payment instructions passed through the payment system and funds were transferred as a result. The intent is not to measure actual fraud losses, although some of the included fraud would result in losses. The purpose is also not to measure fraud attempts that were prevented before they were cleared and settled, and is not meant to include fraud committed by the accountholder or other users authorized to make payments. The purpose is to measure all unauthorized third-party fraud transactions that cleared and settled for which funds subsequently became available to the perpetrator. Please report fraudulent transactions that cleared and settled, for which claims were reported in calendar year 2016 (even if the fraud occurred in the prior year). Please see the Glossary for a detailed explanation.

Definitions and examples

Definitions and examples can be found in the Glossary.

Affiliates

This is an enterprise-wide survey. Throughout this survey instrument, “your institution” refers to the entire enterprise including all affiliates. For accurate representation of your response, we need to know which affiliates listed below, if any, are not included in your response to different parts of the survey, and which additional affiliates, if not listed below, are included in your response. Please contact us at (678) 954-0042 if you have any questions or concerns about the items on this page.

- 1. According to our records (as of December 31, 2016), the following affiliated institutions should be included in your response. For each affiliate listed, please mark any sections where its data are not included in your response.**

Name	City	State	Approximate total deposit balances (in millions of dollars)*	Institution Profile	Checks	ACH	Wire Transfers	Debit and Prepaid	Credit	Cash	Alternative Payments
<Affiliate name>	<City>	<ST>	<Total deposits>								
<Affiliate name>	<City>	<ST>	<Total deposits>								
<Affiliate name>	<City>	<ST>	<Total deposits>								

* Deposit information as of December 31, 2016.

If you have included additional affiliates in your response, please report them in item 2 below. For example, during 2016, if your institution acquired or merged with another institution which is not listed in item 1 above, please report data for the combined enterprise; or if your institution began to process combined volume before the end of 2016, please report data for the combined enterprise as if the merger had already occurred during 2016.

- 2. Please list any affiliates not identified above that are included in your response.**

Institution Profile

Please include calendar year 2016 data for all questions below, unless otherwise specified.
 For an affiliate, if you can only report its data for some items but not others, please explain in the comments box at the end of the Institution Profile section below.

**Average of monthly totals
in 2016**

Number Balance (\$)

1. Transaction deposit accounts (including Demand Deposit Accounts (DDAs)) = 1.a + 1.b

Please report the average of the end-of-month totals for 2016.

- Include: Checking accounts, NOW accounts, and share draft accounts
- Do not include: Balances in retail sweep and wholesale sweep accounts

Checks

Please include calendar year 2016 data for all questions below, unless otherwise specified.
 For an affiliate, if its data are completely excluded from your response to the Checks section, please identify this affiliate in item 1 in the Affiliates section.
 For an affiliate, if you can only report its data for some items but not others, please explain in the comments box at the end of the Checks section below.

1. Did your institution outsource check processing to another organization (i.e., its “processor”) during calendar year 2016?

If your answer is “No,” please skip item 1.a below.

- Yes
- No
- Don’t know

1.a. If your answer is “Yes” to item 1 above, are you able to include these volumes in your answers below?

If your answer is “Yes, in some cases,” please explain in the comments box at the end of the Checks section below.

- Yes, in all cases
- Yes, in some cases
- No
- Don’t know

2. Are you able to exclude non-check documents from “all checks drawn on your institution” item 5 below?

All checks drawn on your institution includes checks drawn on your institution for which another institution was the “bank of first deposit,” and “on-us” checks for which your institution was the “bank of first deposit.” Non-check documents are “other” items processed on check sorters (e.g., batch headers, general ledger tickets, cash-in or cash-out tickets, deposit tickets).

If your answer is “Yes, in some cases,” please explain in the comments box at the end of the Checks section below.

- Yes, in all cases
- Yes, in some cases
- No
- Don’t know

3. Are you able to report checks deposited at one affiliate of your institution but drawn on another affiliate of your institution as “on-us” volume?

Some institutions call this “on-we” volume, which should be reported entirely under item 5.b below. If your answer is “Yes, for some affiliates,” please explain in the comments box at the end of the Checks section below.

- Yes, for all affiliates
- Yes, for some affiliates
- No
- Don’t know
- Don’t have any affiliates

4. Did your institution process checks for an unaffiliated depository institution as part of a correspondent banking relationship during calendar year 2016?

As a “correspondent bank,” your institution holds balances for an unaffiliated depository institution in a due-to account and performs check clearing services on its behalf. If your answer is “Yes,” please report these volumes in item 5.a below.

- Yes
- No
- Don’t know

5. All checks drawn on your institution = 5.a + 5.b

- Include: Inclearings, “on-us” checks deposited by correspondent customers, “on-us” checks for which your institution was the “bank of first deposit,” and outgoing returns including “on-us”
- Do not include: Non-check documents (e.g., batch headers, general ledger tickets, cash-in or cash-out tickets, or deposit tickets)

Number	Value (\$)

5.a. All checks drawn on your institution for which another institution was the “bank of first deposit”

- Include: Inclearings and “on-us” checks deposited by correspondent customers (checks drawn on your institution that your institution received in a deposit from another institution for correspondent processing)

--	--

5.b. All “on-us” checks for which your institution was the “bank of first deposit”

--	--

Checks

6. All outgoing and "on-us" returned checks

All checks drawn on your institution that your institution returned unpaid.

Number	Value (\$)

7. Third-party fraudulent checks drawn on your institution

- Include: Only third-party fraudulent checks your institution paid during the clearing & settlement process. Include both interbank and "on-us" checks that were paid, resulting in a transfer of funds to the collecting bank or, if an "on-us" check, the funds for the check were taken out of the paying account and made available to the depositing account. Please include all third-party fraudulent checks that were paid by your institution, even if the funds were subsequently recovered through the returns process or by other means

- Do not include: Fraudulent checks for which the accountholder was determined to be party to the fraud (i.e., first-party fraud) or check fraud attempts that were prevented before being cleared and settled. If an inclearing check, a transfer of funds to the collecting bank did not occur. If an "on-us" check for which your institution was the "bank of first deposit," funds were not made available to the depositing customers

ACH

Please include calendar year 2016 data for all questions below, unless otherwise specified.

For an affiliate, if its data are completely excluded from your response to the ACH section, please identify this affiliate in item 1 in the Affiliates section.

For an affiliate, if you can only report its data for some items but not others, please explain in the comments box at the end of the ACH section below.

The following ACH section is divided into three parts: Profile, Originations, and Receipts & Outgoing Returns. The section is divided as follows:

- The Profile section will ask questions about “if” and “how” your institution processed/originated ACH payments in calendar year 2016
- The Originations section will ask questions about any payments volume that your institution originated in calendar year 2016
- The Receipts & Outgoing Returns section will ask questions about any payments volume that your institution received and outgoing debit return entries that your institution originated in calendar year 2016

Definitions:

- Originating Depository Financial Institution (ODFI): The Originating Depository Financial Institution (ODFI) is the financial institution that initiates and warrants electronic payments through the ACH network (or on-us) on behalf of its customers
- Receiving Depository Financial Institution (RDFI): The Receiving Depository Financial Institution (RDFI) is the financial institution that provides depository account services to individuals and organizations and accepts and posts electronic entries to those accounts
- Network ACH entries: A network ACH entry is one that is cleared through a network operator (i.e., the Federal Reserve or EPN). This would not include ACH entries cleared directly between your institution and another (i.e., direct exchange ACH entries). Please consider all network ACH entries, including those for which you are both the ODFI and RDFI (i.e., network on-us ACH entries)
- In-house on-us ACH entries: An in-house on-us ACH entry is one for which you are both the ODFI and the RDFI without the use of a network operator (i.e., the Federal Reserve or EPN), for clearing or settlement. In-house on-us entries result in the movement of funds from one account to another within your institution
- Direct exchange ACH entries: A direct exchange ACH entry is one that is exchanged directly between your institution and another. Some institutions call these “direct send” entries
- Offset entries: An offset ACH entry is an on-us entry used to effect settlement by an ODFI. For example, when acting as ODFI for one hundred \$1,000 credit entries for a corporate account holder, an ODFI might originate a single \$100,000 debit entry to draw funds from the originator’s funding account

Please Note:

- In the 2016 Depository and Financial Institutions Payments Survey (DFIPS), direct exchange ACH entries were included under network ACH entries. For this iteration of the study, we have segregated both entry types. Direct exchange ACH entries are to be reported separately under items 6.c and 9.c.

ACH Profile

1. Did your institution post transactions from other payment instruments to your Demand Deposit Account (DDA) system using your ACH platform during calendar year 2016?

- Yes
 No
 Don’t know

If your answer is “Yes,” please do not include these transactions in the items below. Rather than maintaining an interface between your institution’s DDA system and a particular transaction processing system (e.g., signature-based debit card or wire transfer), your institution creates a separate ACH entry to post each of those non-ACH transactions.

2. Did your institution originate forward ACH credits (not including returns or offset entries) during calendar year 2016?

- Yes
 No
 Don’t know

If your answer is “No,” please report “No” for item 5 below, and report “0” for items 6 and its subsets, 7 and its subsets, and 8 and its subsets below.

ACH

3. Did your institution originate forward ACH debits (not including returns or offset entries) during calendar year 2016?

If your answer is "No," please report "0" for item 9.b below.

- Yes
- No
- Don't know

4. Did your institution originate offset ACH debit or credit entries during calendar year 2016?

If your answer is "No," please skip items 4.a, 4.b, 4.b.1, 4.c, and 4.c.1 below.

- Yes
- No
- Don't know

4.a. If your answer is "Yes" to item 4 above, please exclude offset volumes from your answers below. Please indicate if you are able to exclude offset ACH volumes below.

Important: Even if you are not able to exclude all offset volumes, please report the number and value of your institution's forward ACH entries for items 6 and its subsets, 7 and its subsets, and 9 and its subsets and let us know in the comments box at the end of the ACH section below where your institution reported its offsets (e.g., network credits originated, in-house on-us credits originated).

If your institution can exclude offset entries from unbalanced files but not from balanced files, please select the second option to the right.

- Yes, volumes below exclude all offsets
- Yes, volumes below exclude offsets from unbalanced files but not from balanced files
- Yes, volumes below exclude some offsets
- No, volumes below include offsets

4.b. If your answer is "Yes" to item 4 above, how many balanced files did your institution process from business/government accountholders during calendar year 2016?

Number

4.b.1. If you are unable to answer item 4.b above, please provide the estimated percentage of the total settlement files that ACH balanced files constituted during calendar year 2016.

Percent

4.c. If your answer is "Yes" to item 4 above, how many unbalanced files did your institution process from business/government accountholders during calendar year 2016?

Number

4.c.1. If you are unable to answer item 4.c above, please provide the estimated percentage of the total settlement files that ACH unbalanced files constituted during calendar year 2016.

Percent

5. Did your institution offer same-day settlement of ACH credits originations during calendar year 2016?

The effective date for same-day settlement of credits was September 23, 2016. However, some institutions may have used proprietary systems prior to this date. If your answer is "No," please report "0" for items 7.a and 8.a below.

- Yes
- No
- Don't know

7.a. Same-day settlement

7.b. Non-same-day settlement

Number	Value (\$)

8. Third-party fraudulent forward ACH credit entries your institution originated = 8.a + 8.b

- Include: Only third-party fraudulent cleared & settled ACH credit transactions originated, for which your institution was the ODFI, which resulted in a transfer of funds to the RDFI. This would typically be fraudulent payments resulting from an account takeover by an unauthorized third party. If the fraudulent transaction is on-us, cleared & settled means that funds were made available to the receiving accountholder. Please include all third-party fraudulent ACH transactions regardless of whether or not the funds were subsequently recovered by your institution's accountholders

- Do not include: ACH fraud attempts that were prevented before funds were made available to the RDFI, returns solely for reason codes R05, R07, R10, R29, or R51 (i.e., verify with your fraud department that the unauthorized transaction was actual fraud and that the transaction settled with the RDFI), or fraud committed by your institution's accountholders (first-party fraud)

10. ACH outgoing debit returns (i.e., debit return entries your institution originated including “on-us” debit returns)

These are forward ACH debit entries your institution received and were subsequently returned by your institution, the Receiving Depository Financial Institution (RDFI).

Number	Value (\$)

11. Third-party fraudulent forward ACH debit entries your institution received

- Include: Only third-party fraudulent cleared & settled ACH debit transactions received, for which your institution was the RDFI, which resulted in a transfer of funds to the ODFI. If the fraudulent transaction is on-us, cleared & settled means funds were made available to the originating accountholder. Please include all third-party fraudulent ACH transactions regardless of whether or not the funds were subsequently recovered by your institution’s accountholders
- Do not include: ACH fraud attempts that were prevented before funds were made available to the ODFI, returns solely for reason codes R05, R07, R10, R29, or R51 (i.e., verify with your fraud department that the unauthorized transaction was actual fraud and that the transaction settled with the ODFI), or fraud committed by your institution’s accountholders (first-party fraud)
