Hello I'm an ordinary citizen and I know you're not interested in what I have to say but here it is The question: how to make the US dollar unbeatable and much stronger than it is now. Let's assume that the Bricks currency Does not take hold in these large large countries due to unpopularity riots people not accepting being slaves and accountable to their governments lots of chaos we don't do a CBDC here in the USA we wait and we wait for the fallout of all the CBDC's in the world they will fail and no doubt people will never accept their money being controlled. What happens to the dollar?? It will turn into the most valuable currency in the world everyone will want the dollar everyone will want to trade with a dollar our money dollar will skyrocket keep that in mind I'm not a scientist and I'm not a financial wizard I'm just somebody.
