Your comment: In regards to the banking failure of SVB in California, news reports indicate both inside management failure and Failure by the Federal Reserve inspectors and Supervisors! That is indicative of the Rich turning their heads and another Government Oversight Administration playing pocket pool instead of Doing Their Dam Job! I am an In-House Real Estate Appraiser for a small Rural banking chain that does not appear to have any problems with Bad Loans or Solvency, because my Supervisor is on the ball, and I Am A Professional that Doesn't Rubber Stamp Appraisals! You all should try being Honest and Accountable for a change. It helps me sleep better at night! I'm not the smartest person on banking oversight or regulations, but I Am Honest and that Prevents FRAUD! Thanks, Sincerely Darryl Thornton And a Dam Proud Employee and Staff Certified General Real Estate Appraiser for Hearthside Bank of Middlesboro KY. If you want to fix banking, hire me. I'm HONEST
