Comments:

Please include a requirement for banks to notify a customer at an ATM or point of sale for a debit or credit card that an overdraft is about to take place. Any fees involved should also be disclosed. Our credit card guide at <http://www.NativeStar.org> has found that a major complaint of credit card and debit card customers is the lack of awareness that they are about to trigger an expensive fee. Regards, NativeStar.org - The Ultimate Credit Card Guide
