Comments:

Why do those with power have the legal right to steal? This is a completely unfair, and inexcusable practice that the banks now use to steal from my account. I check my account online nearly every day and I have watched them reprioritize my transactions in order to maximize their "take". They also seem to have the "right" to tally deposits after debits to charge fees for anything that bounces. I find this to be an amoral injustice at any time, but especially now. Hey, I realize that banks are in trouble, but why should I be responsible for bailing them out? Also, there's no reason that an overdraft fee should be \$35.00. Please do something to correct this injustice.
