Comments:

I am completely dissatisfied with the banking industry. I bank with Wells Fargo and their fees are outrageous. After receiving \$140 in overdraft fees, I am shopping around to find a bank that best suits my needs. There is not much difference from bank to bank. I had an agent at Wells Fargo explain to me how these \$35.00 overdraft fees work. I at least understand that better. I had three purchases that were from \$5.00 to \$30.00. The bank charged me \$35.00 overdraft fees for each of these items. Outrageous, something needs to be done about this! In this economy the banks are still ripping it's customers off. Why have a government if it cannot work for the people who pay taxes to it?
