Comments:

5th third bank process daily debits from largest to smallest. And manipulates posting dates to charge multiple overdrafts, then rejects the largest item and asks for it to be redeposited without your authorization, so as to create more overdraft fees, I have had to pay \$ 111.00 dollars for fees, each time I have had an overdraft for less than \$10.00 dollars of actual real overdraft. If I would get loans outside of the bank for that amount of fees they would be considered shark loans and, be against the law. After robbing us this way, they want our tax dollars as Bailout money Shame on them and the financial system that lets them get away with this. They charge \$70.00 for the first overdraft and \$35.00 for the others plus 6.00 dollars a day per overdraft per day that it is not covered.
