Comments:

I would like to comment on overdraft fees from Wachovia Bank. My college student was charged 35.00 for going over .63. I made a deposit into her account and she was charged another \$105.00 because she made 3 small purchases on the same day after I made the deposit (this time she was over by .21. This is discussing that the bank after being bailed out by our tax dollars is allowed to charged outlandish fees such as these to poor college students. I have 2 children in college and 1 that just graduated. I can't work any more hours to pay for bank bail outs and huge bonuses. It just isn't fair.
