Comments:

I am happy to see someone is finally going to take care of this problem. I talked to 5th/3rd before opening an account and found they do the same thing. They will cover up to \$500 but then charge you anywhere from two hundred fifty to three hundred dollars. I also know for sure they rearrange the way the debits/credit come in so they can get more charges. US Bank is very good at this one. I hope this measure passes soon.
