

From: Sharon Jackson  
Subject: Electronic Fund Transfers

---

Comments:

-- banks have gotten very cleaver in how they manipulate transactions in your account; when a payment is held, they immediately deduct the money; and then they in turn return the money to your available balance giving one the impression that they have more money than they do.

Stop the financial system from taking advantage of the little person -- we are pinching pennies and need every cent we can get our hands on.

Please help us.

Thanks.

Sharon C. Jackson
