

From: Brandon Riseling  
Subject: Electronic Fund Transfers

---

Comments:

Dear Federal Reserve members,

Please approve and enforce the Consumer Overdraft Protection Fair Practices Act so that it requires banks to notify customers that their ATM card purchase or debit transaction will overdraw their accounts and allow the consumer to choose to continue or cancel the transaction. In addition, please support and enforce rules and or legislation that will require banks to set up Opt-In procedures for Overdraft Protection Programs.

Sincerely,

Brandon Riseling
