

From: Rebecca Moore, PA
Subject: Electronic Fund Transfers

Comments:

I believe that consumers should be given notification prior to completing a transaction that there is no money in the account to cover a purchase or withdrawals when using an ATM or a debit card. There is no reason why this shouldn't happen other than that the banks continued to be allowed to make huge profits on overwhelmed debit/ATM users. We already pay plenty in fees to our banks.

Sincerely,

Rebecca Moore
