Comments:

Haven't banks received enough of the taxpayers money from congress without stealing it through "overdraft fees" and other crafty "services" that no one but the banker's want? When bankers are caught ripping off the public, why don't they go to prison just like the rest of us would? And all of our Senators & Representatives pretend that they are pulling for the people, not "special interests". Sounds like a "Bernie Made Off" scheme to me.
