Subject: Electronic Fund Transfers

Comments:

Please pass HR 1465 - For years I have unsuccessfully struggled with different banking institutions to remove the overdraft withdrawal from my accounts. Their practices amount to fraud and theft and need to stop. I have been told everything from: I need to link my checking account to a credit card if I wish to stop the overdraft fees to it is illegal in the state of Washington to link a checking account to a savings account. Consumers need consistency and the opportunity to keep their hard earned money.
