Subject: Electronic Fund Transfers

Comments:

I understand bank need to charge an overdraft fee, but our bank charges \$30 per incident, which I believe is way too high. With today's economy, I'm sure there are many people out there that aren't intentionally causing overdraft fees, but it happens. At the price of \$30 per transaction, you could end up owing a whole lot more to the bank than needs to be.

I strongly feel something needs to be done about it, at least not have a fee that high. Say, maybe \$5 or \$10, but definitely not \$30 for overdraft. Any help to lower the cost for all banks would be greatly appreciative.
