Comments:

I think it is a shame we have allowed banks to rape us with service charges of \$35.00 due to them paying an overdraft. I tried opening a account without overdraft at several banks and they won't allow it, it is automatic!!! What about us that do not have a computer, or on the road all the time and lost track of our money? Make it where you can have a choice and stop supporting the banks with their ways of actually hurting their customers and robbing them blind!!
