To whom it may concern:

I'm writing to ask that the opt-in rule be adopted on bank overdraft protection "service". I think I speak for most people when I say I'd rather be denied a service, such as buying lunch, than be charged 35 dollars for the privilege. This is especially the case when a purchase overdrafts someone by small amounts, frequently a few cents over what one has in the bank. Please protect us! especially in this time where a lot of people are hurting due to the myriad of issues currently on the country's economic plate.

Thank you!
