Subject: Electronic Fund Transfers

Comments:

About the overdraft fees, I agree banks should not approve pos or atm transactions if there is no money available. Most of these transactions are done without knowing that there is not enough money in the account. Sometimes a hamburger that was suppose to be 5 dollars turned out to be a \$30.00. It would be fair for customers to choose and do an informed decision. Please pass this proposition since banks abuse people with little money. Thank you.
