Comments:

I would like to have the right to stop the bank from paying out funds that I do not have on my debit card, causing an overdraft on my entire account. This causes them to pay the largest first, causing multitude of small amounts to overdraft. I have paid over \$200 in fees for one debit card draft that paid early. AT \$39 an item, it does not take long. This is a great way for the banks to make extra money! I am on retirement and cannot afford this.
