Comments:

The current method of letting you take out cash and then charging an overdraft is PURELY to generate revenue for the bank. It has NEVER been about "Customer Service." It is no different than when the bank (for your credit card) charges you a late fee, which THEN puts your account "overlimit" so they can THEN justify charging the OVERLIMIT fee, as well. Tony Soprano would go to jail for such practices! The banks are clearly out of control.
