After watching the today show today - I have this to say - Not only does my bank charge me for overdrafts - Only \$over \$13000.00 last year but every day you are overdrawn they charge you \$5.00. I mean all our small business costs are up and our income is down - we have been in business over 10 years and now we have more added costs - first of all you can't redo your business loans because the banks are not willing to do that and secondly they are charging out of the ---. What are we supposed to do? Even my small personal account got killed by overdrafts over \$100 in \$5.00. I am sorry but I personally think the economic crisis is going to look sooo ugly - we are a 3rd world country - pretty real pretty!!! I saw a segment on the TODAY SHOW today 3/31/09
