Comments:

Please stop the banks from continuing to gouge us of our money! It doesn't matter if you have overdraft protection or not it still is 29.00 per transaction. Easily you can rack up 100 200 or 300 dollars fees and the bank looks you in the eye and says I did you a favor!!! I floated you a loan.. yea for 2 days and I get charged 200 dollars. what kind of interest rate is that. I thought loan sharking was a crime. You guys need to take a way more aggressive stance on this and other fees. We are the American people and we are getting fleeced!! Oh yea simple solution to the bailout... give the money to the American people!!! Duh I'd pay off my mortgage!
