I just watched the Today show. They were talking about overdrft fees and over limit fees. The Federal Reserve NEEDS TO STEP IN AND STOP OR LOWER THESE FEES. Especially in this economy. They are making millions off of thier customers. This is outrageous. Something needs to be done. And the Federal Reserve needs to act now and put this at the top of the list, These fees need to stop. They are already making money off of us. If you don't have enough on your debit or credit card, THE CARD SHOULD BE DENIED! Obviously, this is how they rip us off and make more money for the bank. Please help all the comumers out there and put this on the top of you list! Sincerely, Pat Rodriguez
