Comments:

We are a 4.5 million credit union, these changes are going to be a hardship for us. We have members who have their payments set up that is easiest for them according to their pay dates. Changing due dates and trying to explain these new changes is going to create alot of confusion on both of our parts. Sending out a monthly statement will be an added expense on our bottom line, that is already tight due to all the other difficulties that the financial industry is having to deal with.
