

From: Pamela Rockstroh
Subject: Reg Z - Truth in Lending

Comments:

To Whom It May Concern:

I am asking you to please postpone the August 20th deadline, so that Congress has time to re-visit this issue.

The Credit Card Act will create an unnecessary burden to both credit unions and it's borrowing members. With the bill being finalized on July 15, 2009 and requiring the credit union to implement this by August 20, 2009, imposes a very unfair and impractical time frame. The credit union acts in a member's best interest by allowing due dates to be set according to the borrowing member's budget. If the credit union has to change due dates on loans to comply with the Credit Card Act, they will not be able to act in the borrowing member's best interest.

Please help to prevent the problems that will be caused by the Credit Card Act to our credit union and it's members.

Sincerely,

Pamela Rockstroh
