Dear Email comments,

Please help us, the consumer, the tax payer. The banks, credit card companies, cell phone companies, satellite companies, (TV and internet) are all playing games and having a hayday at OUR expense. These fees upon fees, hidden rate charges, changing the rules as they go along, and all with threats to ruin our credit if we do not play along, is way out of control. Anyone wonder WHY we are in an economic mess? Not one of us can afford these games anymore. Why does the government reward these crooks w/ loans, when we are struggling to stay afloat? Please fix this issue, not just address it, help us, the consumer, the tax payer, and penalize the crooks, banks, cell phone companies and stop the rips off games to America"s consumers. If you want to fix the economy, fix the cause... which is the criminal activities of these large corportations. Every one from WAMU, to AIG, to a cell phone company. All of them are crooked and should NOT be allowed to continue. Thank you, thank you! For reading and for helping, We are counting on YOU to fix this problem.

Please allow me the chance to opt-in to overdraft services. This is the only way that I will truly feel protected.

Sincerely,

Ms. Dana Meier
