Federal Reserve Board Email comments

Dear Email comments,

It is no secret that the banking industries are corrupt and do not look out for its customers, clients and the citizens who are forced to use bank services. The following request would be a good start to begin the much needed reform within the banking industry and Federal Reserve fractional reserve system. Although the last sentence says: This is the only way that I will truly feel protected. I do not agree with this statement. It was not put there by me. I do not really know when I will feel truly protected. Although I do know it would have to include the dissolution of the Federal Reserve and a Constitutional Amendment putting the people, government, in control of its money. The Federal Reserve does not have the United States of America nor our economic stability in their best interest.

Please allow me the chance to opt-in to overdraft services. This is the only way that I will truly feel protected.

Sincerely,

Mr. Sean Markut
