Federal Reserve Board Email comments

Dear Email comments,

Why are the banks given free reign over the public? The oversights and controls have all gone by the wayside, alleged to be for the benefit of the "stockholders". We all know they need the "perks" and obscene benefits. Take back controls/oversights, as they have been proved to be criminals in suits. The federal agencies have hardly done any better, helping them to screw the public, hardly anything new. It seems GREED is the watchword of the new era, that and inactivity with the very agency that is been tasked with protecting the consumer.

Please allow me the chance to opt-in to overdraft services. This is the only way that I will truly feel protected.

Sincerely,

Mr. Vern Waechter
