Comments:

I think it is time banks are reigned in on charging such outrageous over the limit fees. I feel like I am being robbed. A simple mistake can turn into \$100's of dollars. There should be regulations in place that do not allow this to happen. It has been going on for too long. I hope something is done to get back the \$1000's and \$1000's charged unscrupulously to consumers.
