To whom it may concern,

Kindly support an opt-out system for Bank overdraft fees. It would be much better if they simply rejected a purchase when you try to make one with a debit card when not enough money is in the account. I have tried opting out several times and Wachovia, my bank, has refused to let me or said I can't. An opt-out system would stop them from prohibiting me from opting out.

Thank you,

Gil Landau
