Federal Reserve Board Email comments

Dear Email comments,

Please be advised the "Fed" is NOT our government! The "Fed" is a private European banking cartel, who cares NOT about the consumer. The American people are but living, breathing, wallets to empty. The Fed makes money out of thin air! So the only REAL money of intrinsic value is what hard-working Americans put in the bank. This is where the ruthless banks need to act quickly so they can "pull in" more real money to offset the billions they create out of thin air. This is the greatest ponzi scheme of all! It's been going on for decades! The Fed is running America! And our weak and wicked government is allowing it! The bank fees are usurious, but so-called "Fed" regulators don't care! This demand for fair banking practices will fall on deaf ears, since "he who owns the gold (Fed) rules the world. The Fed doesn't want their ponzi scheme uncovered! Bernard Madoff was a mere amateur to the people he scammed, compared to the credit card, debt delivering Federal Reserve! If the American people truly knew the truth there would be a revolution! The world bank needs to be closed and the American monetary system needs to be revamped, transparent and honest! We need another Boston Tea Party, I'm afraid! The monarchy is still ruling America.

Please allow me the chance to opt-in to overdraft services. This is the only way that I will truly feel protected.

Sincerely,

Ms. Marje Kimberly
