Subject: Electronic Fund Transfers

Comments:

Stop the banks from charging excessive (and repetitive) overdraft fees. If you are overdrawn or over your limit... require the banks to decline or refuse the purchase, as oppose to allowing the purchase (which puts you over the limit or overdrawn) ... then charging you a expletive deleted OPT-OUT on banking fees.

This seems like a NO BRAINER... any idiot could figure out what would be good for their constituents.
