Dear Email comments,

Banks and credit card companies are using underhanded tactics to boost their profits. Put a stop to all of their abuses. Unless it's a government sanctioned monopoly with captive customers, any successful business must make benefit to the customer it's first priority.

Businesses and their paid lobbyists have been using money to influence legislators and regulators in order to prevent, reduce or eliminate restrictions that would stop their abusive practices. America has the best government that money can buy. It's time to change the system and end the corruption. We've had enough of this crap!

Please allow me the chance to opt-in to overdraft services. This is the only way that I will truly feel protected.

Sincerely,

Ms. Gail Meehan
