Federal Reserve Board

Dear Federal Reserve Board:

I've noticed dozens of overdraft fees over the years, where my bank would post an incoming debit BEFORE they posted a deposit that was meant to cover it and THEN charge me a fee for something that should be covered. This is just clearly so wrong.

I'm sure over the years it's cost me hundreds of dollars. They really should be required to post any deposits BEFORE they debit your account.

Sincerely,

Elizabeth Rose
