Comments:

I hate how the banks handle the overdrafts for example I have six over drafts is one day for small amounts that I accrued over the day. The bank charge me six times for going over. I was told the I can charge up to a thousand dollars before they decline my card. I was never told that why signing up for my account. The banks are revive so much of the taxpayers money. They need to stop being so greedy and charging over draft fees. A new system need to be in place. The money should be going back to the banks.
