Federal Reserve Board

Dear Federal Reserve Board:

If CRA had covered more lenders, the economic collapse wouldn't have been so drastic or could have been avoided altogether. Please expand and modernize CRA to cover more lenders to protect communities and borrowers like me.

my husband can't even beg for work, he is self employed in the floor covering business and we live in florida where there are absoutely no jobs in the construction field or his business whats so ever. It is just a matter of time before we lose our home, if work don't come soon. Everyday my husband is on the the phone and pounding the pavement looking for work. Work don't exist here. If our government don't do something asap a hugh percentage of americans are going to be living on the streets with the homeless. I say this is a sad situation for America. The 545 elected officials we have in our government are difinately not working for the american people and I say they all need to be replaced. The hugh enormous deficit wouldn't be there if they didn't want it there ,and the taxes and high taxes wouldn't be there either if they didn't want them there. I say shame on them,they want to blame everyone but them selves. They let the lobbiest control them because they are all greedy and don't say not to their money. They have a choice and they choose to put the screws to the american people. We the american people are in our stride to get all this changed. There are 545 of them but there are 300,000,000 of us. Sorry for their luck it is about to run out. Can you now tell we the american people are over it,sick of it ,done with our government. Please be one that helps us. Thank you KW

Sincerely,

Dawn Wilder
