My name is [___ Greg Hohnholt _____] from [_____, _____].

The hedge fund hyenas have racked up over 27 TRILLION (Bloomberg.com) in felonious derivative debt and no one has gone to jail except Bernie Madoff. This is absurd. The Federal Reserve, a monopolized cartel of offshore bankers, in league with the Treasury, keeps American chattel in perpetual interest-paying debt servitude while your Mafia kingpins, the Wall Street white shoe boys, continue to feather their fouled nests with exorbitant bonuses. And naturally, all this "wealth creation" is artificially expanded when these ...expletive deleted are freed from paying into Social Security while getting their taxes cut to zero in overseas shelters like the Cayman Islands.

Meanwhile, your gang of cutthroats assist them with their outright thievery by making sure all your useful slaves in the Congress due your bidding with a virtual army of lobbyists. As Dick Durbin said of the Senate (and the finance committee in particular, "Wall Street runs the place [i.e. the Senate].") The rule of law is subverted in the SEC by disincentives; promising seven figure salaries to those who purport to be the citizens' watchdog, and making accounting so arcane and labyrinthine as to ensure plausible deniability when the next bubble explodes and the U.S. taxpayer has to foot the bill.

We need more banksters in JAIL doing HARD TIME, preferably starting with narcissist Lloyd Blankfein who thinks he of Goldman Sachs fame is doing "God's work". Just for that blasphemy alone he should be drawn and quartered on Pay Per View. Next up for the guillotine is Timothy Geithner who never met a CDO he didn't like, and his skeletor buddy Hank Paulson, who gave himself a "waiver" from recusing himself in the TARP bailout when he clearly had conflict of interest issues.

INSTITUTE A ROBIN HOOD TAX! BAN DERIVATIVES TRADING (like Germany is starting to do). STOP THE NEW WORLD ORDER BANKING DYSTOPIA!! SAVE AMERICA AND THE RULE OF LAW!

Sincerely,
GREG HOHNHOLT
