Submit your comment letter to bank regulators:

Body (please personalize the bracketed areas to ensure your letter is not overlooked):

I always paid my bills on time and spent decades building my credit - so what did I get for all my fiscal responsibility? My credit slashed by almost \$50,000, credit cards cancelled, and a credit score that keeps tumbling down on itself. Why?, because our so-called "too big to fail" banks were allowed to just merely mention they were in trouble, which caused our elected officials to never even debate whether or not the bankster-gangsters got our taxpayer money. No! more like, it was: how much do you need, and how fast can we get it to you -while we everyday people were being told we were irresponsible, in the wrong, and that it was just tough-luck about our lives being financially slaughtered! We were/are being damned for doing nothing wrong, while the banks got and continue to get rewarded for their TREASONOUS behavior! Even mobsters and thugs treat their clients better than these "too big to fail" banks do. And nobody in any positions of power are doing anything to help! And don't try to con me about the recent reforms being of any good, because I know that's not true - and my financial predicament is proof of it!

I do not believe this letter is going to do any good, or that any one of you is looking out for the welfare of America and her people!
