Comments:

This proposal is absolutely outrageous!! It is the only protection homeowners have against the tidal wave of foreclosures that the average homeowner is currently facing!! So it remains that the rich get richer and the rest of us are subjected to becoming homeless and penniless. Does any of you people care about the millions of American citizens and families this will affect?? What about the families with small children or the elderly who live on small fixed incomes?? What about those servicemen and women and veterans who put themselves in harms way for this country?? Do you care that they won't have the benefit of the TILA to help them keep a roof over their families' heads?? If you pass this proposal, you will have pulled the rug out from under the majority of the American people...the ones who can least afford to pay for the Mortgage Industry's fraudulent predator lending practices which has bankrupted our country!! As it stands right now, the "American Dream" no longer exists for average Americans. It exists only for the wealthiest 1 - 2% of the country's population. Our country has been weakened tremendously by the state of Depression (that's right, this is a Depression and not a Recession) that we are in. Passing this proposal could very well spell the beginning of the end to the very freedoms this nation was founded upon...not just for the Majority but also for the rich Minority!! Please have a heart and DO NOT pass this proposal!!!!!!!!!!
