My name is john reeves

Good affordable credit is essential to the health of our nation's neighborhoods. Financial institutions must be held accountable to participate in the real economy by offering quality loans and community investments. Thank you for initiating the process of updating the Community Reinvestment Act.

The past decade has shown how devastating high-cost, predatory credit can be to our nation. Toxic credit that was targeted to low-income and communities of color caused pushed our entire economy to the brink of collapse and has left in its wake devastation in the form of rampant unemployment, faltering state and local budgets miles of foreclosures and abandoned buildings.

I moved into my new built home in december 2005 and it has lost at least 1/3 of its value and 1/3 of my equity due to the mass of foreclosures in Tucson, AZ which is the metro area near marana. I am 2 years from retirement (hopefully)and my retirement investments has also taken a big hit from the general economic crash. Two years ago i had no idea what a CDO or a credit default swap was, but now i know the damage they have done. I have no idea what other exotic tricks banks have under the covers which could become another house of cards to be crashed. Their investment tools and lending practices which amount to risky betting have got to be visible for regulators to protect the public.

It is imperative that the banks, many of them the very ones who caused this crisis, repair the damage and continue to do good business in our communities. An updated and modernized Community Reinvestment Act can help.

We need:

* Real Accountability and Fairness for Banks. Banks like Bank of America and Wells Fargo that took down our economy should not receive outstanding ratings. Banks should no longer be allowed to pick which of their areas they are graded on or which parts of their companies get looked at.

* Banks must get failing grades if they discriminate by offering toxic loans, less credit, worse credit or inadequate services to African-American and Latino communities.

* Strengthen the requirements for banks to work with us. If they are not doing their jobs, we will be the first to know. We need to be able to challenge the banks directly to meet our credit needs.

Sincerely,

John Reeves
