Your comment: The repeal of Glass-Steagall brought the US Fed to become the leading crook of the financial world. One of the small JPM-Chase smaller thieves just got a 6 month sentence after conviction for spoofing. He stole a lot; the sentence was more like a pardon or reprieve. An oversexed Jeffrey Epstein was Dimon's sidekick in money laundering in Nassau big time. The Chair of the Fed, Jay Powell and several the the Board President finagled everyone by illegal trading in securities behind phony alibis. They are among the many connivers who made fortunes when they should have been locked up for long prison terms. The scoundrels, all of them, stole as if they were innocent babes. Why and how? Just look at their enablers. More of the same.
