Federal Reserve Board Email comments

Dear Email comments,

Credit card practices are unfair and totally out of control. With the economy in the current mess, few of us can even buy gas for our vehicles or possibly even heat our homes without using credit, let alone for other necessities. But for no reason at all, the card companies can/do come back on us with doubled and tripled interest rates and there's no way to ever hope to get out of debt, let alone get on with life without adding constantly to that debt. It's happened to us and we have NO late payments and ALWAYS pay more than the minimum on all cards, so it can happen to anyone. This needs to be brought under control NOW and with strict rules so that the consumer finally gets a fair shake! PLEASE HELP US NOW!!!

Sincerely,

Mrs. Elaine Syth
