

Appendix V
Worksheet WS4 (C Corporations)

Please indicate which financial services your business currently uses by checking yes or no in Rows A-J below. Record up to three sources for each service used. Be sure to include any personal loans or accounts for which 50% or more of the loan or account is used in the business. For each financial institution or source of financing that you record in the columns below, please go to the Financial Institutions table at the bottom of the page and record the full name of the institution and ZIP code of the office or branch you used most often. Sources that typically offer financial services include commercial banks, savings institutions, credit unions, finance companies, insurance companies, mortgage companies, and sometimes individuals and other firms. If there are more than 8 institutions, please list additional names and ZIP codes on a separate piece of paper.

Please also note that this list represents all the possible financial services a business might have; many businesses may only use one or two sources for one or two services.

If you have any questions, please call 1-800-692-4192 or send e-mail to 2003-SSBF@norc.uchicago.edu
