Subject: Credit Card Billing Statement Simplification

Hi,

I heard a news piece on KCBS today and copied the name as best I could. I hope you are the correct person.

I would like to see larger print for the "due date" of the bill and have it in a prominent location. We use Citibank and the font size is incredibly small and the due date appears in an obscure part of the bill. It's as if they want you to be late so as to accrue interest charges.

Thanks for you time.
