**Subject:** Truth in Lending

Dear Members of the Federal Governement;

I would strongly support your efforts in remedying the current operating practices of the credit card industry. The financial/banking industry overall has over the last twenty years pushed the limits of what is reasonable and has proved that it can not be left up to itself to provide the consumer, its client base, ethical service.

Please pass this resolution for the greater good of this country.

Sincerely.

Orietta Frame

Savannah, GA 31405
