Subject: Truth in Lending

To Whom It May Concern:

I unilaterally agree to all the proposed regulations being proposed on credit card issuers. I am sick and tired of constantly having to worry about what or when my credit card will spiral out of control with jacked up interest rates. I am also tired of having to constantly look for cheaper rates on other credit cards and doing balance transfers to avoid usurious tactics. Please pass the proposed legislation and give us credit card users some much needed time off from worrying.

Thank you

Douglas & Cindy Dunaway
