**Subject:** Truth in Lending

This article is very informative **about** the deceptive interest charges that these companies charge. CITI credit card is one, who I did do business with for about 30 days or less. Juniper is another Company who is Bait and Switch interest rates. Hoping if you have any updates on credit cards, that will be posted on this site. It is very important for the consumer to know what these companies are up to. Thanks for all of your information on this issue.
