Subject: Truth in Lending

I am all in favor of the new regulations and changes being proposed on the Credit Card issuers and the financial institutions that are using highly questionable tactics to trick and impose high rates, fees, and monies on the unsuspecting public.

Feel free to contact me for my experiences with the mangy monster called "Capitol One".....crooks!
And its all intentional, and done for hidden fees and higher rates that aren't fair or visible.

Hausding, Sid
