Comments:

I am really sick and tired of our government taking more and more of our freedoms away! Only to give more rights and perks to the outsiders that come into our country! They seem to be getting more freedoms to do what they want than people that where born in this country or came here LEAGALLY! and became citizens like our for fathers did. Our constitution and laws have been bent all out of proportiion to appease everyone else, but not us the verry people that built this country with our blood a sweat!!!!!! Now you want to take a skilled game and make it illeagle for people to have fun and meet others. I guess you can tell by now that I am very upset about this and the way our congress bends the rules to get what they want and dont care about what the people of this country want. I really use to love getting together after a long day at work or on the weekends to play some poker with friends online and showing some of my skills. I see nothing wrong with this and it should be a crime to attach this bill on the back end of something else! Give me a break!Whats next? Signed very frustrated with it all
