Subject: Regulation Z

Please leave the mortgage brokers alone. The bad eggs in the industry have basically gotten out over the last year. We work very, very hard for our customers and thru FHA we are able to help many many people, that normally would never qualify to purchase a home. Not everyone in the U.S. make as much as Senators, Governors, Congressman, etc., nor do they have any idea of what we do. We do a great job and I have many testimonials to prove it!!!!!!!!!!!!!! Thank you, Kathy Slaughter
